-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The claims are generally narrative and indefinite, failing to conform to current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

See the appropriate paragraph of the 10/1/04 Office action.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9 and 12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 0582231, EP 03223605 or EP 0806666.

See the appropriate paragraph of the 10/1/04 Office action.

***Response to Arguments***

Applicant's arguments filed 1/3/05 have been fully considered but they are not persuasive.

Applicants traverse the 35 USC 112 second paragraph rejections on the grounds the identified terms such as "taps", etc. are described on page 5 of the specification. The Office only found two references to "taps" in the specification. One was found on

Art Unit: 1743

page 12 of the priority document where "taps (7)" is mentioned but not described.

Further, on this page "tags (7)" and "ribs (7)" are described which further confuse what structure "taps" intends since it shares the same reference number with tags and ribs.

Applicant's amendments to overcome the 37 CFR 1.75(c) objections are appreciated.

Applicants state the instant claims are directed to a device wherein the pretreatment system is covered by a lid that has an excess fluid collecting compartment. However, the instant claims are not clear if the lid portion is provided with means to form an excess fluid collecting compartment.

Applicant state the lid-provided backing support of the test device to regulate the flow of the liquids. Again, the instant claims are not clear of these structure and the comments are not commensurate in scope with the claims.

***Allowable Subject Matter***

Claims 10-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1743

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.
